February 2008

Detective Charles Troll of the Orlando Police Department was our guest speaker at our February luncheon. Detective Troll has been with OPD over 15 years and investigating economic crimes for 8 years. He is the lead computer forensic investigator for OPD.

Fraud costs over \$60 billion a year. One of the main crimes now involves identity theft. Identity theft occurs when someone obtains and uses a persons identifying information to commit fraud. An imposter can open new credit card accounts, drain your bank account, apply for loans, and so on.

Although there are often no warning signs that identity theft has occurred, some possible red flags include:

- monthly credit card bill and banks statements stop arriving
- you are denied credit for no apparent reason
- you start getting bills from companies you don't recognize
- collection agencies try to collect on debts that don't belong to you

Some things you can do to minimize your risk include:

- never carry documents you don't need -- social security card, passport, etc.
- shred all personal documents before throwing them in the trash
- don't put your address, phone number, drivers license number on your checks
- get a copy of your credit report from the 3 national credit reporting agencies once a year. Go to AnnualCreditReport.com to request your free report.

Next Luncheon is March 4th

Our next luncheon is Tuesday, March 4th at noon. Jim McNamara, Chief of Forensics for the Florida Department of Law Enforcement Regional Office in Orlando, will be our speaker. You'll hear an overview of what FDLE does and find out how much of the TV program CSI is the real deal! The luncheons are \$15 (\$10 for actives at UCF & Rollins). This price includes the meeting room, the meal, tax, tip, gratuity, and parking. The University Club is

located on the corner of Rosalind and Central, directly across the street from the main library. Parking during the meetings is available in the lot right next to the club – just pull up to the gate and the gate will open.
